# 1. Product overview

Seaory S series half-panel 1/2ymcKO ribbon consist of yellow (Y), magenta (M) and cyan (C) panels for printing a full spectrum of colors by combining the colors using varying degrees of heat. The K panel is a black resin panel, typically used for printing text and barcodes and the O panel is a thin, clear protective overlay that is applied to the entire surface of your cards. Seaory S series half-panel 1/2ymcKO ribbon for printing half-panel full-color images and combination of Monochrome text and barcodes

This ribbon can only be used in Seaory S series card printers. To maximize print card quality and card printer durability, please use the Seaory original ribbon.

It is mainly used for printing student card, traffic card, employee card, club membership card and driver's license.

# 2. Main features

- Durability and print quality

Print clear, bright images and text. In addition to the standard colors (Yellow, Magenta, Cyan and Black), YMCKO ribbons apply a protective varnish (O) that protects the card's printed elements. The film can be anti - oxidation discoloration, fading, waterproof, anti - fingerprint and other functions

● **Safety**

Seaory S series half-panel 1/2ymcKO ribbon will not be able to be color printed again after PVC card printed text, barcode and images and covering the surface protective overlay. This way can prevent card information from being tampered.。
